Technical drawing of a stepped shaft. The drawing shows a shaft with a change in diameter. Dimension A is the length of the larger diameter section. Dimension B is the length of the smaller diameter section. Dimension C is the total length of the shaft. Dimension D is the diameter of the larger section. The drawing includes a cross-section view of the shaft, showing the internal structure and the transition between the two diameters.

Technical drawing of a circular ring. The left view is a side elevation showing a rectangular cross-section with a central hole. The outer diameter is labeled D and the inner diameter is labeled B . The right view is a top-down plan view showing concentric circles representing the inner and outer diameters, with a central crosshair indicating the center of the ring.
